The Filtrex Products

We manufacture, supply and install a wide range of wastewater products to suit your specific needs:

- **Septic Systems**
 - Irrigation Leach Drains - MK1 & MK2
 - Nutrient Phosphate Removal Systems - ATU
- **Water Re-use Systems**
 - Split Black & Greywater Systems
- **Greywater Systems**
- **Components**

Contact us to discuss customising a solution to meet your wastewater requirements.

Why choose a Filtrex Product?

- ✓ No ongoing maintenance
- ✓ No contracts or servicing fees
- ✓ No pumps running 24 hours a day
- ✓ Waters your garden anytime
- ✓ Is hidden underneath the lawn or garden
- ✓ We offer the lowest installation height in the marketplace. For rocky sites or those close to the water table, this means minimising the visual impact of the installation
- ✓ Odourless
- ✓ Safe for children and animals
- ✓ Fully biodegradable
- ✓ The plastic we use is fully recycled
- ✓ Approved by the WA Department of Health
- ✓ Australian Patent awarded
- ✓ West Australian owned and designed

About Filtrex

Filtrex Innovative Wastewater Solutions is Western Australia's leading supplier of environmentally sustainable wastewater systems. The company was established in 1991 and it is based in the south west region of WA, servicing the entire area of WA where environmental considerations must be taken into account for wastewater management.

With experience in the building and wastewater industries and coupled with extensive testing at the Kwinana wastewater treatment plant (which yielded excellent results), the Health Department of WA has granted approval for all of the Filtrex products.

We are present in both the retail and trade markets. We are the preferred supplier for Dale Alcock Homes, Plunkett Homes, WA Country Builders, Great Living Homes, Summit Homes and many other award winning building companies.
